

2026 CATALOGUE

Welcome

Our 2026 catalogue showcases an inspiring collection of new finds from our recent travels. Continuing our long-standing relationships with trusted suppliers, we've also explored trade fairs and factories in China, Indonesia, and Vietnam—discovering new partners and distinctive designs that surprise, delight, and inspire. Alongside these fresh additions, you'll find our most loved best sellers. We're incredibly proud of what we've curated and hope you enjoy the collection as much as we have.

Inside, you'll discover the evolution of our collaboration with David Heimann, Creative Director of Orson & Blake and Bramble—an American brand with over 30 years of heritage, first introduced in 2025. **THE EDIT | Bramble by O&B** brings together David's refined creative vision with Bramble's renowned craftsmanship. For 2026, the collection expands with bolder colours and a balance of classic and contemporary design, created to complement today's elevated interiors.

Our alfresco offering continues to grow with **Lanai Living**, where indoor comfort meets outdoor ease. From laid-back lounging to elegant alfresco dining, the collection brings a timeless tropical spirit to patios, decks, and garden retreats—naturally luxurious, effortlessly sustainable, and designed for relaxed open-air living.

The **Everyday Living Collection** redefines casual luxury through a thoughtful blend of natural rattan, tactile timbers, and sumptuous fabrics. Timeless designs, each piece balances comfort with character—creating warm, inviting spaces designed for everyday living.

A Big Thank You

All our staff extend a sincere thank you to our loyal customers for continuing to choose us as one of your valued vendors. We look forward to supporting your needs now and in the future.

For 2026, **Bramble by Orson & Blake** expands **THE EDIT** range and injects sculptural pieces in saturated colours that delivers a luscious statement making distinction when combined with our existing signature range of naturally calm rattans and raffia pieces.

New personality upholstery in Fern Green and Warm Amber sit alongside polished lacquer-like timbers in Celadon, Duck Egg, Navy and Emerald, giving an emotionally charged colour style that stands out from the crowd taking our interiors into a new era.

THE EDIT focuses on reimagined classics and edgy contemporary, pairing clean, tailored styles with subtle curved seating and soft, organic feeling textures. Materials such as smooth washed timbers, vibrant paints, luscious and sustainable fabrics, natural rattan and wrapped raffia work together to create a sensory, grounding experience in every piece.

"Comfort and texture go hand in hand, when we touch we feel" says David Heimann, Creative Director of Orson & Blake "Collaboration is so important to me. In a crowded market, it felt paramount to partner with a manufacturer of experience and craftsmanship - where we can rely on the highest quality in materials and finishes available".

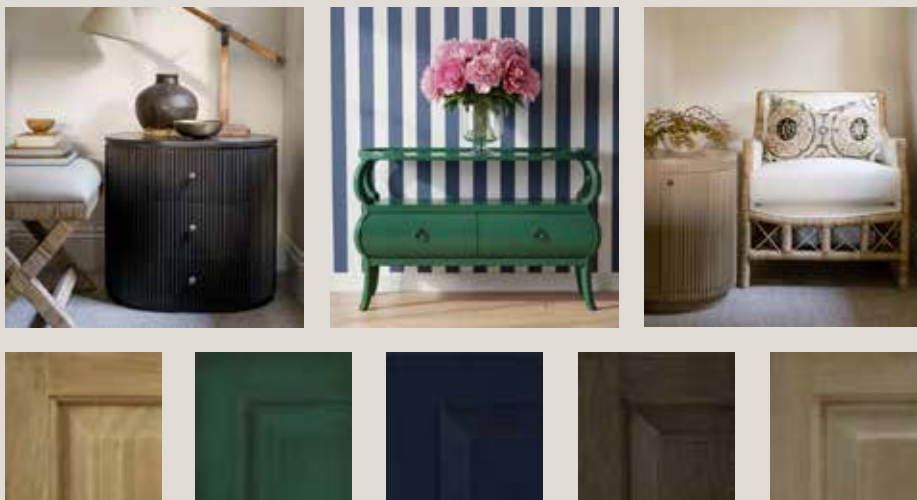

"I've seen styles come and go, but beneath them all are certain fundamentals that are more about content than just the way things look. Comfort, heritage, quality, and craftsmanship are the pillars here, holding up the handsome authentic beauty. "

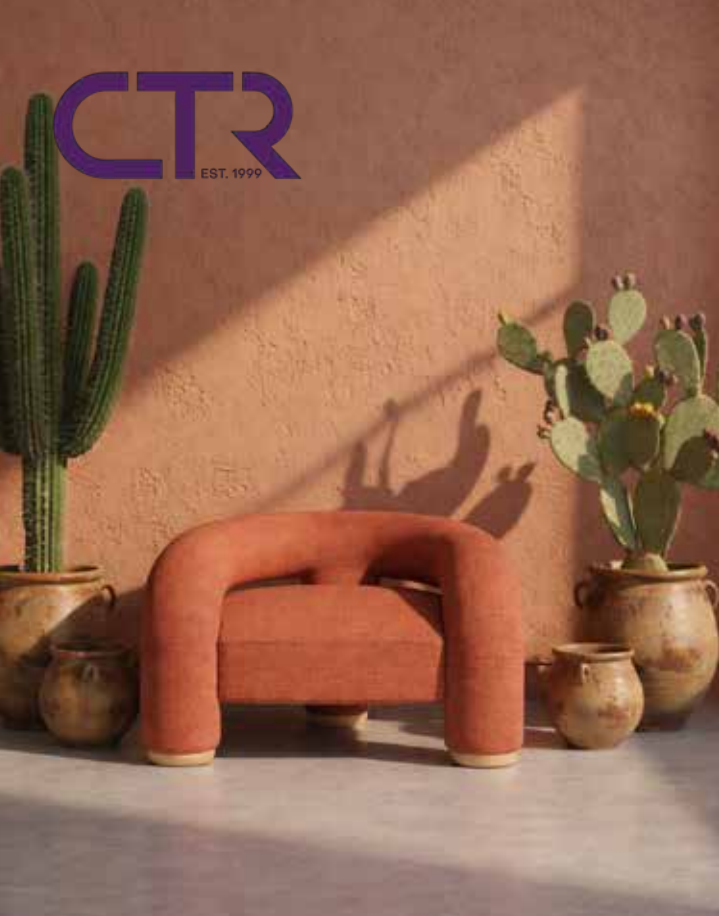

Designed to be lived with and felt, **THE EDIT** speaks to a new chapter in quality interiors - one that's elegant, grounded and enduring.

About Orson & Blake

Known for expressive, eclectic design sensibility, O&B has helped shape the Australian interiors landscape for over 30 years - blending global inspiration with a commitment to creative form.

Available exclusively through CTR Imports, **THE EDIT** a collection that reimagines modern living with calm, tactile sophistication.
